Independent Auditor's Report

To the Board of Directors Coastal Bend Bays and Estuaries Program, Inc. Corpus Christi, Texas

We have audited the accompanying statement of financial position of Coastal Bend Bays and Estuaries Program, Inc. (a nonprofit organization) as of August 31, 2012, and the related statements of activities, functional expenses, and cash flows for the year then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Coastal Bend Bays and Estuaries Program, Inc. as of August 31, 2012, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated March 25, 2013 on our consideration of Coastal Bend Bays and Estuaries Program, Inc.'s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Our audit was performed for the purpose of forming an opinion on the financial statements of Coastal Bend Bays and Estuaries Program, Inc. taken as a whole. The accompanying schedules of expenditures of federal and state awards are presented for purposes of additional analysis as required by U.S. Office of Management and Budget CircularA-133, Audits of States, Local Governments, and Non-Profit Organizations, and the State of Texas Uniform Grant and Contract Management Standards (UGCMS), and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used

to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Coastal Bend Bays & Estuaries Program, Inc. is a nonprofit Texas corporation chartered in August 1999. The Organization was organized to implement the Coastal Bend Bays Plan, which seeks to ensure that the Coastal Bend bays and estuaries remain a vibrant part of the region's environmental and economic landscape by preserving and enhancing their roles as a recreational resource, international seaport, and habitat for fish and wildlife.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual method of accounting.

Financial Statement Presentation

Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of funding entity-imposed restrictions. Accordingly, net assets of the Organization and changes therein are classified and reported as follows:

Unrestricted net assets - Net assets that are not subject to funding entity-imposed restrictions.

Temporarily restricted net assets - Net assets subject to funding entity-imposed stipulations that may or will be met, either by actions of the Organization and/or passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently restricted net assets - Net assets subject to funding entity-imposed stipulations that they be maintained permanently by the Organization. Generally, the grantor of these assets permit the Organization to use all or part of the income earned on any related investments for general or specific purposes.

Contributions

Contributions are recognized as revenue when they are received or unconditionally pledged. All contributions are available for unrestricted use unless specifically restricted by the donor.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Revenue Accounting

Government grants are recognized as revenue in the period of related expenses. Therefore, unreimbursed expenses are accrued as accounts receivable and excess reimbursements are accrued as a liability, to be refunded to the government.

Property and Equipment

Property and equipment are stated at cost or donated value. Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

	Estimated
Asset Class	Useful Lives
Office Buildout Amortization	5
Classroom Structure and Improvements	25
Equipment	5-10

Government Grant Revenues

Substantially all of the Organization's public support and revenues are from various government grants. Federal funds and state funds are provided through the Texas Commission On Environmental Quality, U.S. Fish & Wildlife Service and U.S. Environmental Protection Agency. Local funds are provided by the City of Corpus Christi, Port of Corpus Christi, San Patricio County, City of Portland, City of Ingleside, City of Port Aransas, City of Aransas Pass and Nueces County.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Organization considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. The cash restricted is not considered to be a cash equivalent for purposes of the statement of cash flows.

Federal Income Tax Accounting

The Organization is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. However, an annual return must be filed for each calendar year on Form 990, Return of Organization Exempt from Income Tax, to report details of operations and financial position.

Donated Materials, Equipment and Services (In Kind Services)

Donated materials and equipment and donated services are recorded as contributions at their estimated values at the date of receipt.

Concentrations of Credit Risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counterparties failed to completely perform as contracted. Management believes the likelihood of incurring material losses due to concentration of credit risk is remote. The principal financial instruments subject to credit risk are as follows:

The Organization's cash and cash - restricted are deposited with a financial institution (bank). The cash deposited exceeds the FDIC (Federal Deposit Insurance Corporation) insured limits and is not secured by any other collateral.

Investments

Following is a summary of investments stated a fair value held by the Organization as of August 31, 2012

U.S. Treasury Bills	3,999,522
Certificates of Deposit	173,017
•	
Total Investments	4,172,539

2. FEDERAL AND STATE FUNDED GRANT AGREEMENTS

CBBEP has ongoing grants with the following State and Federal Agencies:

- Texas Commission On Environmental Quality
- Texas General Land Office
- Texas Parks and Wildlife
- United States Fish and Wildlife Service
- United States Environmental Protection Agency Region VI (two grants)

3. IN KIND CONTRIBUTION AGREEMENT

Agreement between the Port of Corpus Christi Authority of Nueces County, Texas (Authority) and the Coastal Bend Bays & Estuaries Program, Inc. (CBBEP). The Authority will provide CBBEP with certain services to support the management and operation of CBBEP. Services provided include office space, office furniture, telephones, and access to the local area network.

4. LOCAL GOVERNMENT CONTRIBUTIONS

As of August 31, 2012 the Organization had received the following contributions from local sources:

City of Corpus Christi	\$	75,000
Port of Corpus Christi		75,000
Port Industries		75,000
San Patricio County		30,000
City of Ingleside		5,000
City of Port Aransas		5,000
City of Portland		5,000
City of Rockport		2,500
Total Contributions	\$:	272,500

PROPERTY AND EQUIPMENT

Property and equipment at August 31, 2012 consisted of the following:

Land (Habitat) - Deed Restricted	\$ 4,418,035
Office Build Out	166,184
Classroom Structure and Improvements	63,683
Equipment	163,370
Total	\$ 4,811,272
Less accumulated depreciation and amortization	(245,810)
Property and equipment, net	\$ 4,565,462

Land (Habitat) – The Coastal Bend Bays & Estuaries Program Inc. acquires real property interests in wetlands and associated uplands to ensure that the real property will be administered for the long-term conservation of such lands and waters and the migratory birds and fish and other wildlife dependent thereon.

Office Build Out – The Port of Corpus Christi Authority of Nueces County, Texas (Authority) contributes office space to the Coastal Bend Bays & Estuaries Program, Inc. (CBBEP) (see note 3). The Authority spent \$166,184 "building out" the office space provided to CBBEP. CBBEP amortized the "build out" over five years. The amortization was complete in 2004.

Conservation Easements – CBBEP holds third-party conservation easements on 983.00 acres of property owned by various local governments. These properties were acquired by local governments for use as parks and protected green space. The conservation easements were donated at no cost to CBBEP in order to satisfy the requirements of the grants used by local governments to purchase the properties. No values have been placed on these easements.

6. TEMPORARILY RESTRICTED NET ASSETS

Temporarily restricted net assets were available for the following purposes as of August 31, 2012:

Court Ordered Condition of Probation (COCP):

In February, 2003, the CBBEP received from the United States District Court for the Southern District of Texas, Corpus Christi Division, funds to develop, in coordination with the TCEQ and the U.S. Environmental Protection Agency (EPA), water quality remediation projects in and around Corpus Christi. Specifically, the CBBEP will implement the COCP project: "Preservation and Enhancement of Wetlands and Wildlife Habitats in the Nueces River Delta." The CBBEP maintains these funds in a separate interest-bearing account used exclusively for such funds. The source of these funds is a result of a felony conviction which required a Company to pay the funds for this project as a condition of probation for a criminal conviction.

\$4,419,588

Shamrock Island Habitat Protection & Enhancement Project

In June, 2004, the CBBEP received monies for the enhancement of colonial waterbird habitat on Shamrock Island in Nueces County, which has experienced significant loss of wetland and rookery habitat due to dredging activities and erosion from waves and ships. This project will satisfy required mitigation for the seagrasses that will be impacted by activities near Packery Channel. Funds are provided by the City of Corpus Christi.

\$ 250,423

Tortuga Dunes20,000Kate's Hole14,052Total Temporarily Restricted Net Assets\$ 4,704,063

7. NET ASSETS RELEASED FROM RESTRICTIONS

Net assets were released from donor restrictions by incurring expenses, satisfying the restricted purposes by donors as follows:

Environmental projects funded by federal and state grants	\$ 2,454,528
Private non-profit corporate grant	114,548
Total	\$ 2,569,076

8. RETIREMENT PLAN

Effective September 1, 2010, the Organization established a defined contribution Section 401(k) employee retirement plan. All employees are eligible to participate in the plan immediately upon employment. The Plan requires that the Organization make discretionary contributions in each Plan Year to the Individual Retirement Accounts of all eligible employees. The plan provides that Organization contribute 3% of the gross compensation of all eligible employees and also make matching contributions equal to 100% of the portion of each eligible employee's 401(k) contributions that do not exceed 6% of the employee's eligible pay. For the year ended August 31, 2012 the Organization contributed \$60,710.

9. FAIR VALUE MEASUREMENT

The Organization's assets and liabilities reported at fair value are valued using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy defines three levels of inputs, giving the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs.

The Organization uses the following hierarchical disclosure framework:

<u>Level 1</u> -- Measurement based upon quoted prices for identical assets in an active market as of the reporting date.

<u>Level 2</u> — Measurement based upon marketplace inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Measurement based on the Organization's assumptions about a hypothetical marketplace because observable market inputs are not available as of the reporting date.

The Organization uses appropriate valuation techniques based on the available inputs to measure the fair values of its assets and liabilities. When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs have the lowest priority.

The following table sets forth by level within the fair value hierarchy, the Organization's assets measured at fair value on a recurring basis as of August 31, 2012:

Investments	Level 1	Level 2	Level 3	Total
U.S. Treasury Notes	3,999,522	-	_	3,999,522
Certificates of Deposit	173,017	-	-	173,017
Total Investments	4,172,539		<u> </u>	4,172,539

10. RESTATEMENT OF BEGINNING NET ASSETS

During the year, management determined that certain prior year Grant Receivables had been overstated and the Land Capital Asset Account had not been adjusted to reflect the donation of land to the City of Corpus Christi, Texas. Beginning Net Assets have been restated as follows:

NTOTAL A CONTRO

		NET ASSETS	
		Temporarily	
	Unrestricted	Restricted	Total
Beginning balance, as previously reported	5,197,662	4,704,063	9,901,725
Net Assets restatement for Grant Receivables	(19,713)		(19,713)
Net Assets restatement for Land	(487,836)		(487,836)
Beginning balance, as restated	4,690,113	4,704,063	9,394,176

11. SUBSEQUENT EVENTS

Management has evaluated subsequent events through March 25, 2013 the date which the financial statements were available to be issued.

Independent Auditor's Report

Report on Internal Control over Financial Reporting and on Compliance And other Matters Based on an Audit of Financial Statements Performed In Accordance with Government Auditing Standards

To The Board of Directors Coastal Bend Bays and Estuaries Program, Inc. Corpus Christi, Texas

Members of the Board:

We have audited the basic financial statements of Coastal Bend Bays and Estuaries Program, Inc. (a nonprofit organization) as of and for the year ended August 31, 2012, and have issued our report thereon dated March 25, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and the provisions of the State of Texas, Uniform Grant and Contract Management Standards (UGCMS).

Internal Control over Financial Reporting

Management of Coastal Bend Bays and Estuaries Program is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Coastal Bend Bays and Estuaries Program's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Coastal Bend Bays and Estuaries Program's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Coastal Bend Bays and Estuaries Program's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of significant deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not designed to identify all deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and UGCMS.

This report is intended solely for the information and use of management, others within the organization, the Board of Directors, the Texas Commission on Environmental Quality, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

Lovvor + Kierchneck, LLP

March 25, 2013

Independent Auditor's Report

Report on Compliance with Requirements Applicable That Could Have a Direct and Material Effect on each Major Program and Internal Control Over Compliance

In Accordance with OMB Circular A-133

To The Board of Directors Coastal Bend Bays and Estuaries Program, Inc. Corpus Christi, Texas

Members of the Board:

Compliance

We have audited Coastal Bend Bays and Estuaries Program, Inc.'s compliance with the types of compliance requirements described in OMB Circular A-133 Compliance Supplement and the provisions of the State of Texas Uniform Grant and Contract Management Standards (UGCMS) that could have a direct and material effect on each of the Organization's major federal and state programs for the year ended August 31, 2012. The Organization's major federal and state programs are identified in the summary of auditor's result section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs is the responsibility of the Organization's management. Our responsibility is to express an opinion on the Organization's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations; and the provisions of the State of Texas, Uniform Grant and Contract Management Standards (UGCMS). Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about Coastal Bend Bays and Estuaries Program, Inc.'s compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Organization's compliance with those requirements.

In our opinion, Coastal Bend Bays and Estuaries Program, Inc. complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended August 31, 2012.

Internal Control Over Compliance

Management of Coastal Bend Bays and Estuaries Program, Inc. is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the Organization's internal control over compliance with requirements that could have a direct and material effect on a major federal or state program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, others within the organization, the Board of Directors, the Texas Commission on Environmental Quality, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.
